FOR IMMEDIATE RELEASE

Chevron to Sponsor 2nd Annual Home Front Festival by the Bay
Company contributes \$20,000; fire safety equipment showcased for children

RICHMOND, Calif., October 2, 2008 – Chevron Richmond Refinery announced today that it will serve as a presenting sponsor of the 2nd Annual Richmond “Home Front Festival by the Bay” on October 3, 4, & 5. Chevron has served as a presenting sponsor both years of the Home Front Festival. Aside from Chevron’s financial sponsorship of \$20,000 to the festival, the Richmond Refinery will have two information booths at the event with information and displays of the refinery’s operations. One booth will include models and displays of typical refinery equipment as well as other refinery information. The second booth will provide print materials about the company’s safety and environmental efforts as well as some other small gifts for the festival goers.

A new attraction Chevron brings to the Home Front Festival by the Bay this year is one of the Chevron Richmond Refinery’s world class fire engines. Chevron firefighters will be on hand to answer questions about the refinery’s safety procedures and other questions of interest to the greater Richmond community. This is also a great opportunity to share with children as they are allowed to explore the fire engine and dress like a firefighter, while also learning important lessons about safety.

The Home Front Festival on the Bay is hosted by the Richmond Chamber of Commerce, the City of Richmond, and Rosie the Riveter/WWII Home Front National Historical Park. For more information about the 2nd Annual Richmond “Home Front Festival on the Bay,” you may visit the website at www.homefrontfestival.com.

The Chevron Richmond Refinery is committed to contributing to the social and economic development of the Richmond community. We believe that providing community support, both through financial assistance and personal involvement, is our responsibility as a good neighbor. The Chevron Richmond Refinery is located on 2,900 acres 25 miles from San Francisco and produces high quality transportation fuels for the San Francisco Bay Area and Northwest United States. We take pride in our commitment to serving our community, conducting safe operations and protecting the environment. With a capacity to process 240,000 barrels of crude oil per day,

-MORE-

Chevron Richmond Refinery makes gasoline for passenger cars, jet fuel for airplanes, and diesel fuel for trucks and trains. In addition to producing transportation fuels, the refinery produces a variety of lubricating oils which are distributed throughout the Western United States. Chevron Richmond Refinery is the largest producer of base oils on the West Coast.
