Richmond, CA 94802-0272

Dear Dean:

One month ago, I hosted the 19th Annual Mayoral Golf Invitational at Richmond Country Club. After a wet and cold winter, we enjoyed a spectacular day on the course. I was delighted to have nearly a full invitational with 132 players and more guests to join us for dinner.

I am very proud to share the news with you that with your generous contribution of \$5,000, more than \$32,000 will go directly to support Kennedy High School's students in the pre-apprenticeship program, also known as the Construction and Architecture Program of the WCCUSD. As you have heard, this exciting program provides 75-100 Kennedy High students with instruction in a career training and academic exploration program as part of a world class district career academy.

Our instructors prepare students for academic success by building a curriculum that is sequenced, integrated and relevant, meeting external standards, and assisting students in passing the trade apprenticeship examinations. If you had been with us at dinner, you would have heard 12th - grader Juan Francisco Callejas speak of the relevance this program has had in his life - and, the opportunities it is going to provide him for his future.

We have already scheduled next year's Invitational for Monday, May 7, 2007 - and, hope you will once again join us for a day of community that will serve to build brighter futures for our youth.

Sincerely yours,

Mayor Irma L. Anderson
