

Creating Prosperity

**Chevron's
Global Social
Investments**

Human Energy®

Helping our communities succeed.

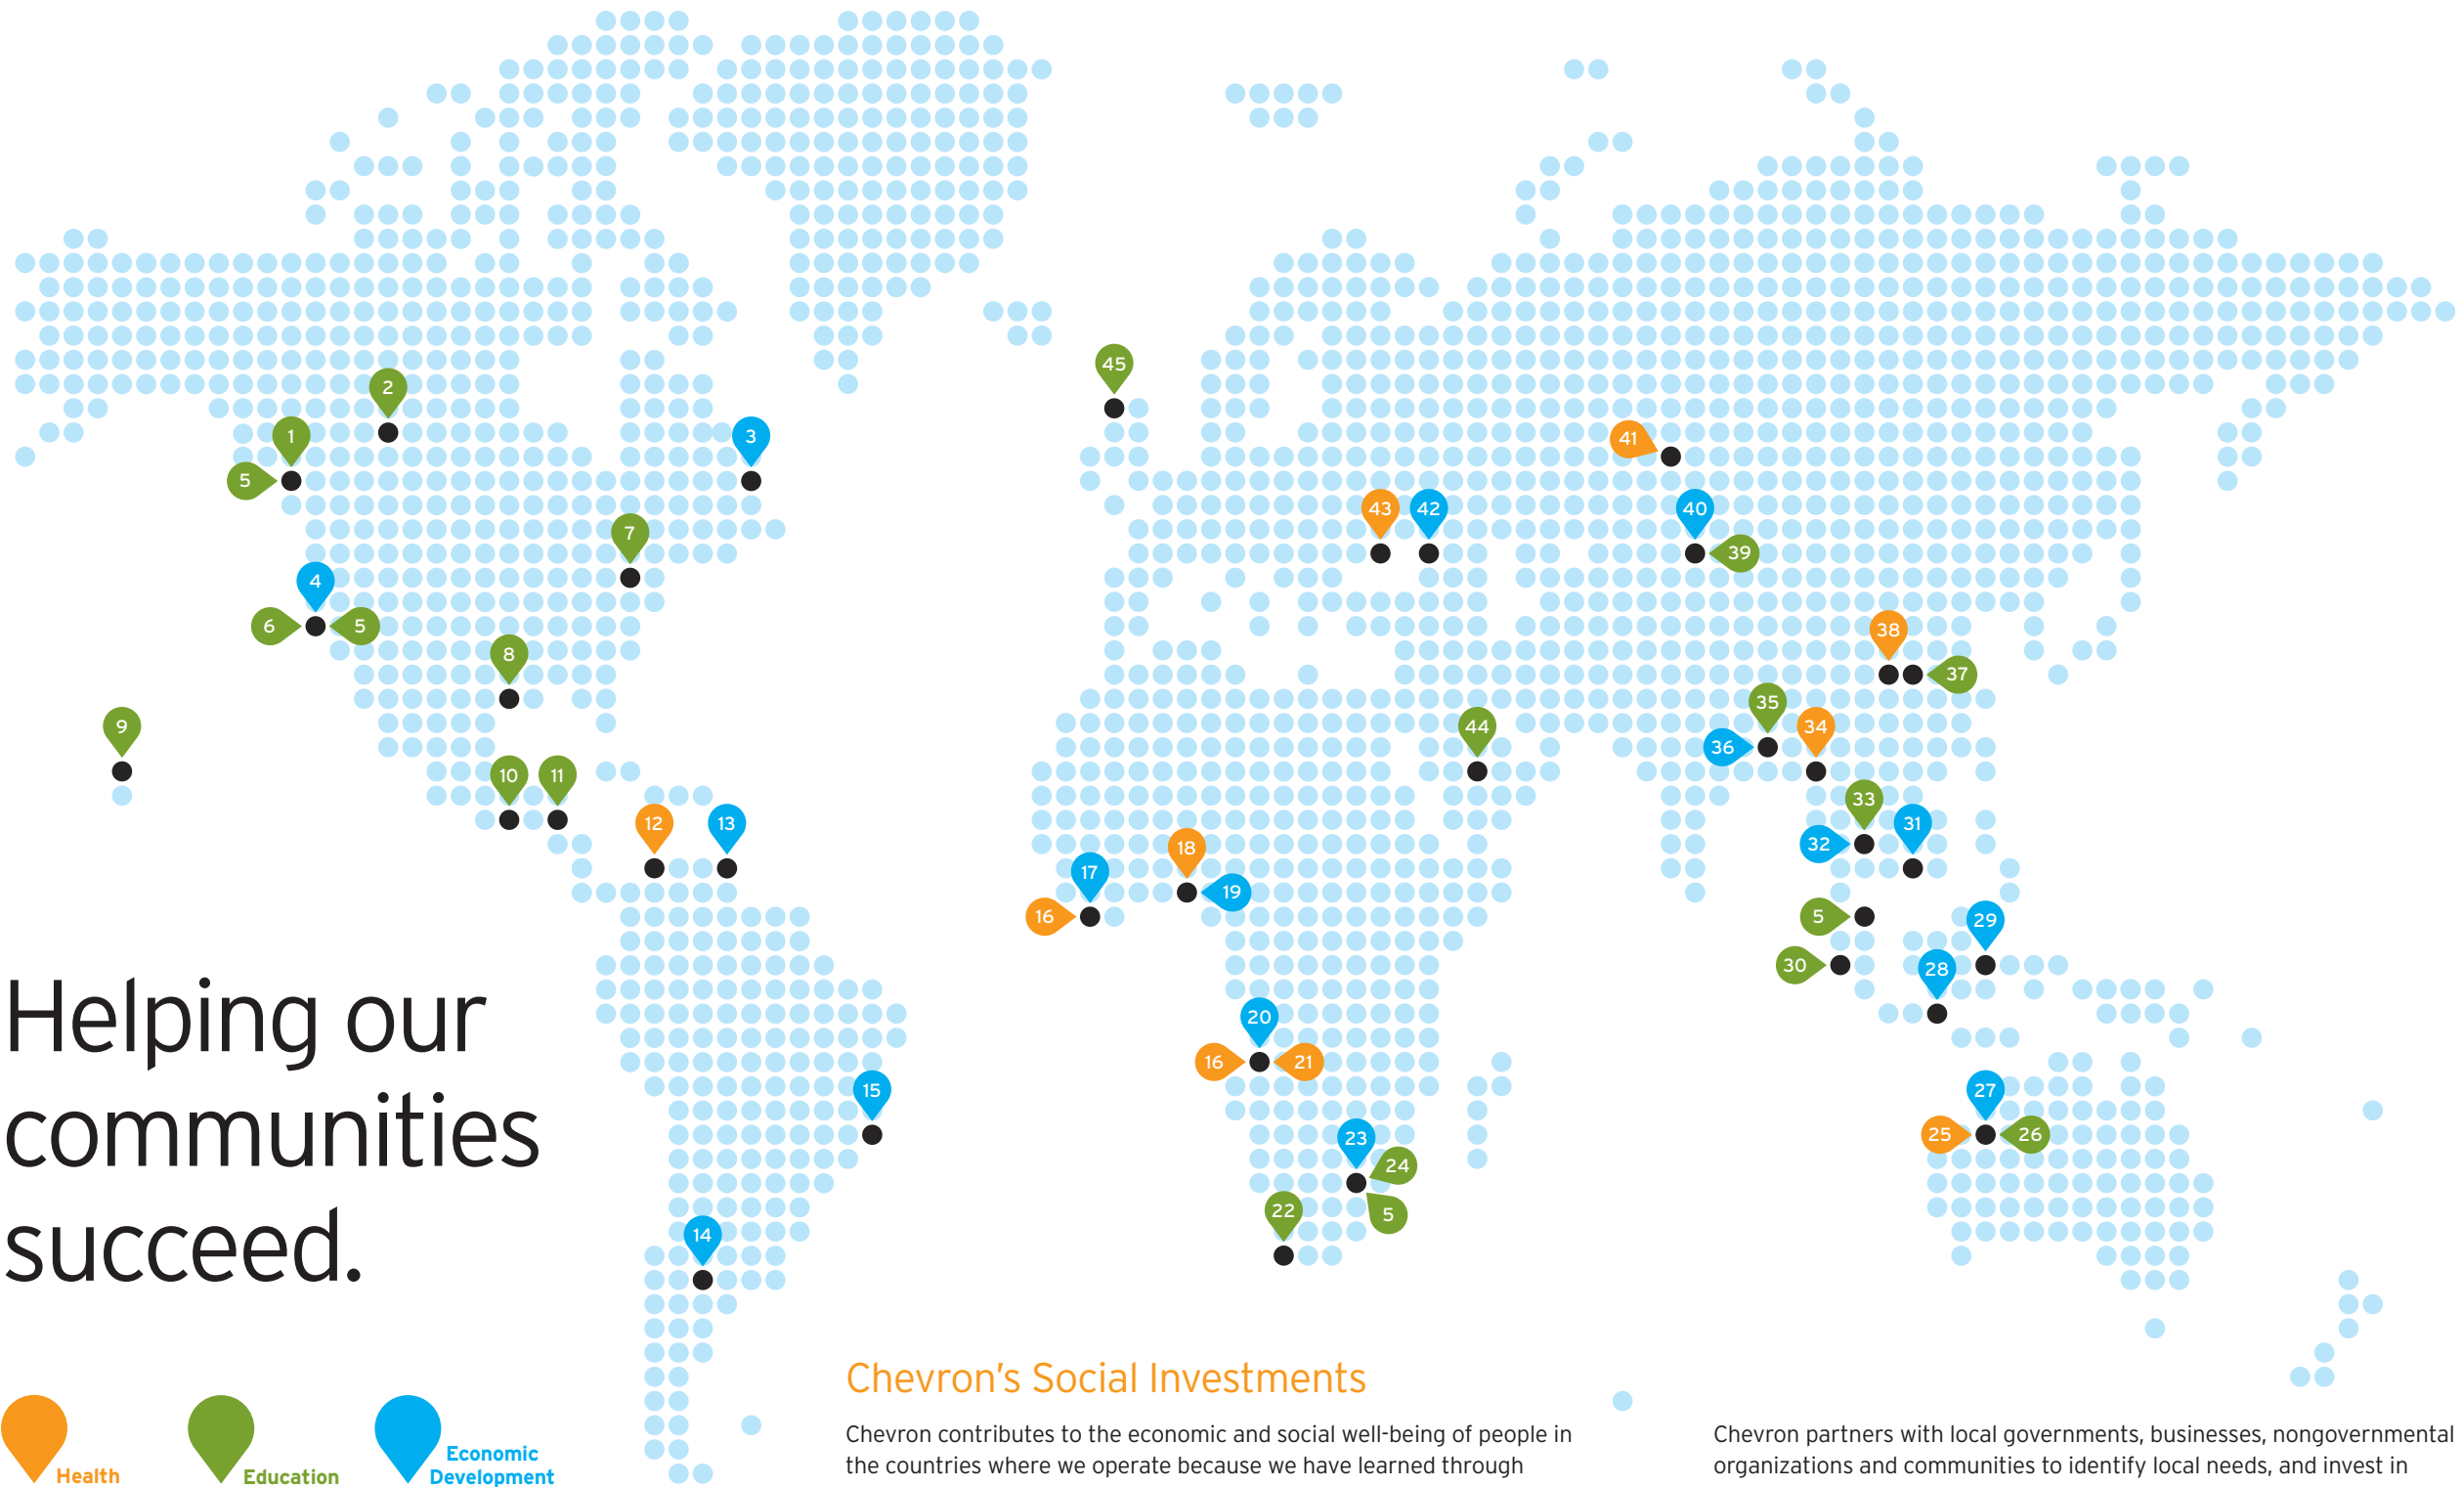

The pins on this map represent social investment programs and partnerships we support in communities where we operate.

Chevron's Social Investments

Chevron contributes to the economic and social well-being of people in the countries where we operate because we have learned through decades of experience that our business success is deeply linked to society's progress and built upon long-term and mutually beneficial relationships that contribute to local economies. Our social investments, with a significant focus on health, education and economic development programs, aim to create prosperity now and for generations to come.

Chevron partners with local governments, businesses, nongovernmental organizations and communities to identify local needs, and invest in solutions and programs that will deliver measurable and lasting results. Over the past eight years, we've made nearly \$1.5 billion in social investments in local communities, such as those represented on this map.

This map represents a sampling of Chevron's social investment programs and partnerships around the world. To learn more, visit Chevron.com/CR.

1 Sticks & Stars and Girls in Action Programs
Vancouver, Canada

As partners with the Surrey School District, we support vulnerable and at-risk children in disadvantaged neighborhoods by funding astronomy and science projects along with innovative healthy-living programs.

2 Chevron Open Minds Heritage School
Alberta, Canada

Chevron's Open Minds program enables students to develop their writing skills during a weeklong visit to the Heritage Park Museum, site of the former Fort McMurray.

3 Stella's Circle
St. John's, Newfoundland & Labrador, Canada

Chevron's support helps the Stella Burry Foundation achieve its goal of having marginalized adults overcome long-term barriers to employment by providing skills development and jobs.

4 GRID Alternatives
Oakland, California, United States

We support this nonprofit organization dedicated to providing job training in renewable energy fields for local workers and to supplying solar power to low-income families.

5 Fuel Your School
Surrey and White Rock, Canada; AK, CA, FL, GA, HI, LA, MS, OR, TX and UT, United States; Johannesburg, South Africa; Johor and Kedah, Malaysia

Chevron's campaign supports public education by helping K-12 educators receive funding for eligible classroom projects through DonorsChoose.org. In 2013, the program supported the education of nearly 1 million students in 16 U.S. communities. In addition, similar Fuel Your School programs were available internationally, in Canada; Johannesburg, South Africa; and Johor and Kedah, Malaysia.

6 Project Lead The Way
CA, LA, MS, OH, PA, TX and WV, United States

Chevron works with Project Lead The Way to bring a rigorous, project-based engineering curriculum to more than 100 schools in seven states across the country, reaching more than 80,000 students.

7 Marcellus Partnership Initiative
Pennsylvania, Ohio and West Virginia, United States

Chevron invested more than \$1 million in 2013 to support science, technology, engineering and math (STEM) programs and job training initiatives in its Marcellus operating areas of Pennsylvania, Ohio and West Virginia. We support programs such as the Carnegie Science Center, Project Lead The Way and Mentors Community Wealth Building Initiative.

8 JASON Project
Houston, Texas, United States

Chevron invests in the JASON Project, a national nonprofit program that inspires students to pursue careers in STEM fields. JASON uses award-winning, standards-based STEM curricula developed with the National Geographic Society, the National Oceanic and Atmospheric Administration, and others. Approximately 100,000 students have benefited from the program in Houston.

9 Chevron/Honolulu District Speech Festival
Honolulu, Hawaii, United States

Through a partnership spanning more than 25 years with the Honolulu District of the Hawaii State Department of Education, we provide the opportunity for approximately 300 third- through sixth-grade students each year to participate in this noncompetitive, oral communications showcase. Participants are rewarded with both constructive feedback and a medal of participation.

10 Regional Youth Development Initiative
El Salvador, Guatemala, Honduras and Panama

This program aims to leverage existing resources, partnerships and volunteers to provide complementary educational, sports, enrichment and vocational opportunities that build life skills and promote job readiness for young men and women living in vulnerable communities in El Salvador, Guatemala, Honduras and Panama.

11 Speech Competition
El Salvador, Guatemala and Honduras

This competition engages talented high school orators in El Salvador, Guatemala and Honduras to spread information on road safety among their peers. Winners secure scholarships to continue their education.

12 Visual Health Program
Riohacha, La Guajira, Colombia

We have developed a visual health program to offer eye exams, eyeglasses and training to residents in the municipality of Riohacha.

13 Fostering Entrepreneurship
Caracas, El Tigre, Puerto La Cruz, Maracaibo and La Cañada Municipality, Venezuela

We provide microentrepreneurs with a comprehensive training program to create and maintain their businesses and improve their living conditions. In 2013, Chevron supported 1,265 entrepreneurs – 60 percent of them women.

14 Job Training Program
General Roca, Rio Negro, Argentina

This program focuses on reducing unemployment through vocational training and includes free workshops in computer operations, food handling, horticulture and other trades.

15 Job Skills for Women and Youth
Rio de Janeiro, Brazil

In Brazil, Chevron participates in three projects – Inclusão Comunitária, Com.dominio Digital, and Enter Jovem Plus – to improve opportunities for women and young people by improving their professional skills. In 2013, these programs benefited 900 people.

16 Global Health Corps
Liberia and Angola

We're supporting this Texas Children's Hospital program, which supplies doctors to Liberia and Angola to provide maternal and child health care, and train African physicians and nurses.

17 Women's Entrepreneur Program
Liberia

In partnership with the U.S. State Department's African Women's Entrepreneurship Program (AWEP), 750 female farmers and small business owners throughout Liberia have attained business and management training designed specifically for unschooled participants, and three regional food processing centers have been equipped with rice- and cassava-product processing machines.

18 Partnering for an HIV/AIDS-free Africa
Nigeria

Through our partnership with Pact, we support the sustainable, community-based, government-backed PROMOT project to prevent mother-to-child transmission of HIV in Bayelsa State. To date, nearly 7,400 women have been tested for HIV during prenatal care.

19 Promoting Fish Farming in the Niger Delta
Niger Delta, Nigeria

Through an economic development program from the Chevron-funded Niger Delta Partnership Initiative (NDPI), fish farmers and other local entrepreneurs participate in workshops and training programs at economic development centers in Warri and Port Harcourt.

20 Cabinda Resource Center
Cabinda, Angola

As partners with the Angolan government, we're setting up a business resource center in Cabinda to provide ongoing consulting and mentoring to small and medium-sized businesses to help them improve their productivity and competitiveness.

21 Fighting Sickle Cell Disease
Angola

Since 2011, Chevron has partnered with the Angolan Minister of Health, Baylor College of Medicine and Texas Children's Hospital to create Angola's first comprehensive program to screen and treat newborns for sickle cell disease. More than 65,000 babies have been screened and 900 babies have been treated.

22 Trade Skills Program
Cape Town, South Africa

Our Cape Town refinery is working with Northlink College to address the skilled-labor shortage in South Africa by funding training in nationally accredited trade-skills programs.

23 Empowering Women Through Economic Development
Pretoria, South Africa

Chevron partners in an initiative to empower women in rural, disadvantaged communities by combining a microfinance program with an HIV-prevention training curriculum.

24 Math & Science Incubator Schools Program
South Africa

Chevron supports the Math & Science Incubator Schools program, which uses a unique technology-based learning model to address students' math and science education challenges.

25 Mobile Earbus Clinic
Pilbara Region,
Western Australia

Chevron partners with Telethon Speech and Hearing Centre to offer mobile hearing clinics to service Aboriginal children.

26 Encouraging STEM Education
Pilbara Region,
Western Australia

In collaboration with local schools in the Pilbara region, we are enhancing the science curriculum, and with Scitech, our local STEM partner, we have tailored programs for high school students, teachers and remote Aboriginal schools.

27 Developing Microenterprises
Pilbara Region,
Western Australia

Chevron partners with Many Rivers Limited to support field offices in the Pilbara region and Perth to help marginalized Aboriginals and other Australians develop microenterprises.

28 Income for Forestry Communities
Darajat, Indonesia

In the forestry community surrounding Chevron's geothermal operations in Darajat, Indonesia, we provide technical training and microloans to help farm laborers start small businesses and conserve natural resources.

29 Coconut Sector Enhancement for Sustainable Livelihood
East Kalimantan, Indonesia

Chevron, in partnership with Swisscontact, provides training and coaching on the application of good agricultural and processing practices to coconut farmers and coconut and palm sugar processors in seven villages in Penajam Paser Utara.

30 Polytechnic Schools
Riau and Aceh Provinces,
Indonesia

Chevron sponsored and built two polytechnic schools to train Indonesian students for jobs in the industrial sector. Together, these schools have graduated more than 2,000 students.

31 Women's Empowerment
Cambodia

We're building up local communities in Cambodia by increasing awareness of health issues, improving literacy and basic math skills, and supporting village banking and microenterprise development.

32 Advancing Leadership and Livelihood Opportunities for Youth
Chonburi and Rayong Provinces, Thailand

We work with Pact to provide increased livelihood opportunities and practical income-generating options for vulnerable youth and help them build self-esteem and leadership skills.

33 Inquiry-based Classroom Reasoning for Experiential and Active Science Education
Songkhla and Nakhon Si Thammarat Provinces, Thailand

The project changes the way science is taught in high schools by training teachers and principals to use inquiry-based science curricula with their students and building strong teacher networks.

34 Promoting Health
Sagaing Region, Myanmar

Chevron and Pact's SHINE program has reached more than 1 million people across 1,166 villages to bring sustainable health solutions and improved livelihood opportunities.

35 Improving Education Access
Bangladesh

Chevron is improving access to quality education in rural communities near our operations in partnership with Save the Children.

36 Promoting Sustainable Livelihoods
Habiganj District, Bangladesh

In rural villages near our gas fields, our economic development programs have organized villagers into self-help groups and provided skills training and seed funds that have launched a variety of small and medium-sized enterprises.

37 Walk Wise Program
Gaoqiao Township,
Kai County, China

This program aims to equip students with pedestrian survival skills by presenting a road safety curriculum and awareness-raising activities in schools. Nearly 1,000 students were reached in the 2012 pilot year, and the program has expanded to cover 23,000 more students.

38 Immunization Program
Sichuan Province, China

Implemented in partnership with Save the Children, the project aims to increase the quality, availability and access of immunization services and increase knowledge about and demand for immunizations.

39 Strengthening Community Groups
Kazakhstan

By providing resources, training, consultation and other learning opportunities, we help nongovernmental organizations become strong partners in meeting society's needs.

40 Empowering Women
Kazakhstan

By providing educational opportunities and supporting development of small and medium-sized enterprises, Women's Entrepreneurship aims to empower Kazakh women, who face high unemployment rates.

41 Healthy Pregnancies
Almaty and Astana,
Kazakhstan

Since 2011, we have promoted healthy pregnancies in Almaty and Astana through information-sharing, training and workshops for pregnant women and medical personnel. In 2014, we've extended the program to medical students.

42 Professional Training for Disabled Youth
Krasnodar Krai, Russia

Chevron helps provide training in social entrepreneurship to specialists working with disabled people. The specialists work with disabled youth, encouraging them to conceive of and implement their own projects.

43 Black Sea Foundation
Constanta County, Romania

Through our support for the Baylor Black Sea Foundation, communities in Constanța County receive infectious disease prevention, testing and care services from a mobile unit and offices in Constanța.

44 Saudi Petroleum Services Polytechnic
Dammam, Saudi Arabia

Chevron helped found, organize and direct the Saudi Petroleum Services Polytechnic in Dammam, which provides Saudi high school graduates with the technical and vocational skills to become certified oil field support-services technicians.

45 Focus Environment Photo Contest
Scotland

For the past 20 years, Chevron has been a sponsor of Focus Environment, an environmental photography competition for secondary school pupils throughout Scotland.

On the cover: Through a Chevron-sponsored economic development/microfinance program, Ibu Witiningsih sells her fresh produce at Petung Market in Penajam Paser Utara, East Kalimantan, Indonesia.

This map is printed on Forest Stewardship Council®-certified Mohawk Options 100, made from 100 percent post-consumer waste. It is processed elemental chlorine-free and produced using wind energy.

Printed by Lithographix, Inc., whose rooftop solar panels are expected to offset the company's energy demands by 30 percent.

Design: Sequel, New York
