

video transcript

innovating through robotics: trailer

human energy®

On Screen Text: protecting: people & the environment

On Screen Text: improving: operational efficiency

Ken Gillan: One thing you can see with Chevron, they're very good at partnering with other technology developers.

Kalypso David: The software is designed to be user-friendly.

Joel Devine: It's really easy to maneuver and it has a nice steady movement.

On Screen Text: advancing: offshore inspection techniques

On Screen Text: developing: technology through partnerships

Joel Devine: I think the snake arm could really transform inspections.
